

## Respiratory System Definitions

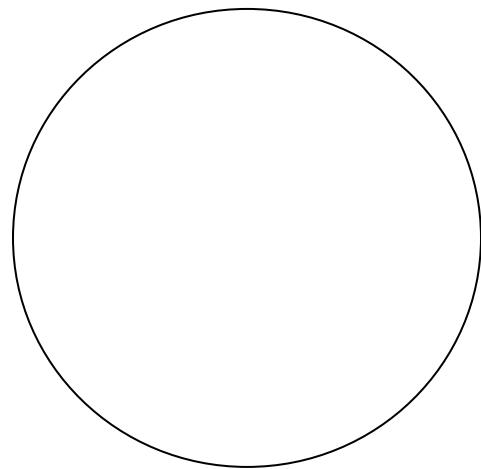

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
  
5. \_\_\_\_\_

## Factors for Successful Gas Exchange

1. Moist, thin respiratory surface (membrane) -
  
  
2. Partial pressure (concentration of gases) –
  
  
3. Large respiratory area –
  
  
4. Respiratory protein (hemoglobin) -

## **External Respiration**

## **Internal Respiration**
